THE "HOLLY INN."

# Mount Holly Springs.

Opens Thursday, June 9, 1887.

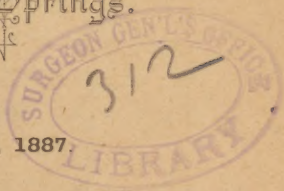

THE undersigned takes pleasure in announcing to his friends and the public that he will open the  
"HOLLY INN"

at Mt. HOLLY SPRINGS, CUMBERLAND CO., PENNSYLVANIA,  
for the season of 1887, on Thursday, June 9.

He also takes great pleasure in presenting its attractions and advantages as a

## Summer Health Resort.

Mt. HOLLY SPRINGS are delightfully situated at the base of South Mountain on the verge of the great Cumberland Valley and are surrounded by scenery which, in picturesqueness, approaches to grandeur. The secluded situation of these springs gives a quiet satisfaction that those in search of rest cannot fail to appreciate. The

location is delightfully pleasant, even during the sultriest days, being

Overshadowed by Towering Mountains  
adown whose sides the cool breezes are constantly blowing; the gap between the mountains being narrow and funnel-shaped, causes a constant current of air that tempers the heat of the day and renders the night cool and refreshing.

The air is pure and dry, and coming from the vast pine-covered surroundings, is a sure remedial to the system afflicted by the too prevalent enemy—malaria.

The waters flowing from

near by, are mildly sulphurous in character, tonic in effect, and recommended for chronic diseases of which general debility is a feature.

The views from the Inn are magnificent, and one can never tire of the beautiful natural avenues in the

### *Adjacent Grand Old Woods,*

affording miles of shaded walks and drives.

Carlisle is but six miles distant, connected by an excellent driveway with pleasant scenery on each side; while Gettysburg is so close that the roar of the artillery in July, 1863, re-echoed at the Inn.

The building has been remodeled and refurnished, lighted with gas throughout; it has hot and cold baths on each floor, while in front of the house stretches a

### Large Shaded Lawn

for Tennis and Croquet. The BOATING, in a lake of thirty acres, close to the Inn, is excellent. Good trout, bass, and pickerel FISHING in the near neighborhood, while there is excellent hunting among the mountains.

### The Wonderful Boiling Springs

are five miles distant on line of the railroad. The fine drives and wondrous scenery at the Springs will repay a visit to them.

### Boarding and Livery Stables

are connected with the Inn—and there are telegraph and telephone communication, with four daily mails north and south.

The time distance to the

### Historical Battle Field of Gettysburg

is within three-quarters of an hour by rail, and twenty minutes only to the Government Indian School at Carlisle.

MOUNT HOLLY SPRINGS can be reached by the Pennsylvania Railroad and the Philadelphia and Reading Railroad from New York and Philadelphia, by way of Harrisburg *via* the Cumberland Valley Railroad and
